

To whom it may concern

On behalf of Kentech International Limited. I would like to express our appreciation of the performance of R&M Wholesale Electric LLC the company management and their employees for their contribution in providing Kentech with all the necessary material to carry out the installation of our Electrical and instrument installations throughout the Gulf region.

In a substantial respect R&M greatly assisted Kentech on various projects by working close with our estimating department at tender stage and offering quick solutions in getting material to our sites to help get projects started on time and within budget, In doing so R&M undoubtedly saved many projects time that could have gone to rework and from time that might have been lost through late deliveries of material.

R&M and Kentech have work closely together in other regions in Baku Azerbaijan and Kazakhstan and this has helped both of us to form a good working relationship.

We at Kentech are extremely confident that the success of many of our projects has gone a long way in helping us secure a long term business relationship with R&M and feel that this has been made possible due to the combined efforts of both management teams.

I can therefore recommend R&M Wholesale Electric LLC as an able, competent and committed supplier, a supplier of International standard who works very ably to *use* local resources to the maximum and best advantage, and a supplier with a very good attitude to managing safe working and responsive to customer requests and concerns.

Yours Sincerely
Robert Hassett
Operation Director Middle East
